

An invitation
to an exhibition of photography

ARAT

by
RAY FINNERAN

ARAT (another rock another tree) is an engaging exhibition of black & white photograph of trees and rocks, but they're "more than" just trees and rocks!

The images have captured the form and texture of rocks and celebrate the life of the tree.

The framed silver gelatine photographs are printed using traditional hand crafted darkroom techniques..

The photographs have been toned to produce a unique interpretation of the subject
